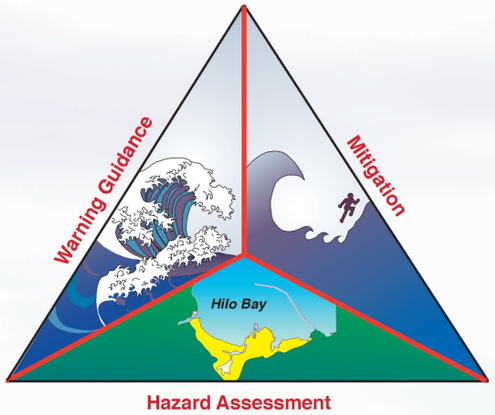
The National Tsunami Hazard Mitigation Program



A State/Federal Partnership created to reduce the impacts of tsunamis to U.S. Coastal areas by coordinating the state efforts of Alaska, California, Hawaii, Oregon, and Washington with the federal activities of the National Oceanic and Atmospheric Administration, the Federal Emergency Management Agency, the U.S. Geological Survey, and the National Science Foundation.

National Tsunami Hazard Mitigation Program Steering Group

Chairperson: Eddie Bernard
Pacific Marine Environmental Laboratory

NOAA

Frank González, Pacific Marine Environmental Laboratory
Jeff LaDouce, NWS Pacific Region
Richard Przywarty, NWS Alaska Region
Laura Kong, ITIC

DHS/FEMA

Chris Jonientz-Trisler, Region X
Michael Hornick, Region IX

USGS

Craig Weaver, National Earthquake Hazards Reduction Program
David Oppenheimer

NSF

Juan M. Pestana-Nascimento
NSF Tsunami Program Manager

Alaska

R. Scott Simmons, Alaska Division of Emergency Services
Roger Hansen, University of Alaska

California

Richard Eisner, Governer's Office of Emergency Services
Don Hoirup, Jr., California Geological Survey

Hawaii

Brian Yanagi, Hawaii Civil Defense
Glen Bauer, State Geologist
Sterling Yong, Dept. of Natural Resources

Oregon

Mark Darienzo, Oregon Emergency Management
George Priest, Department of Geology and Mineral Industries

Washington

George Crawford, Washingtom Emergency Management
Timothy Walsh, Division of Geology and Earth Resources
