

NDBC 46002 Wave Spectra

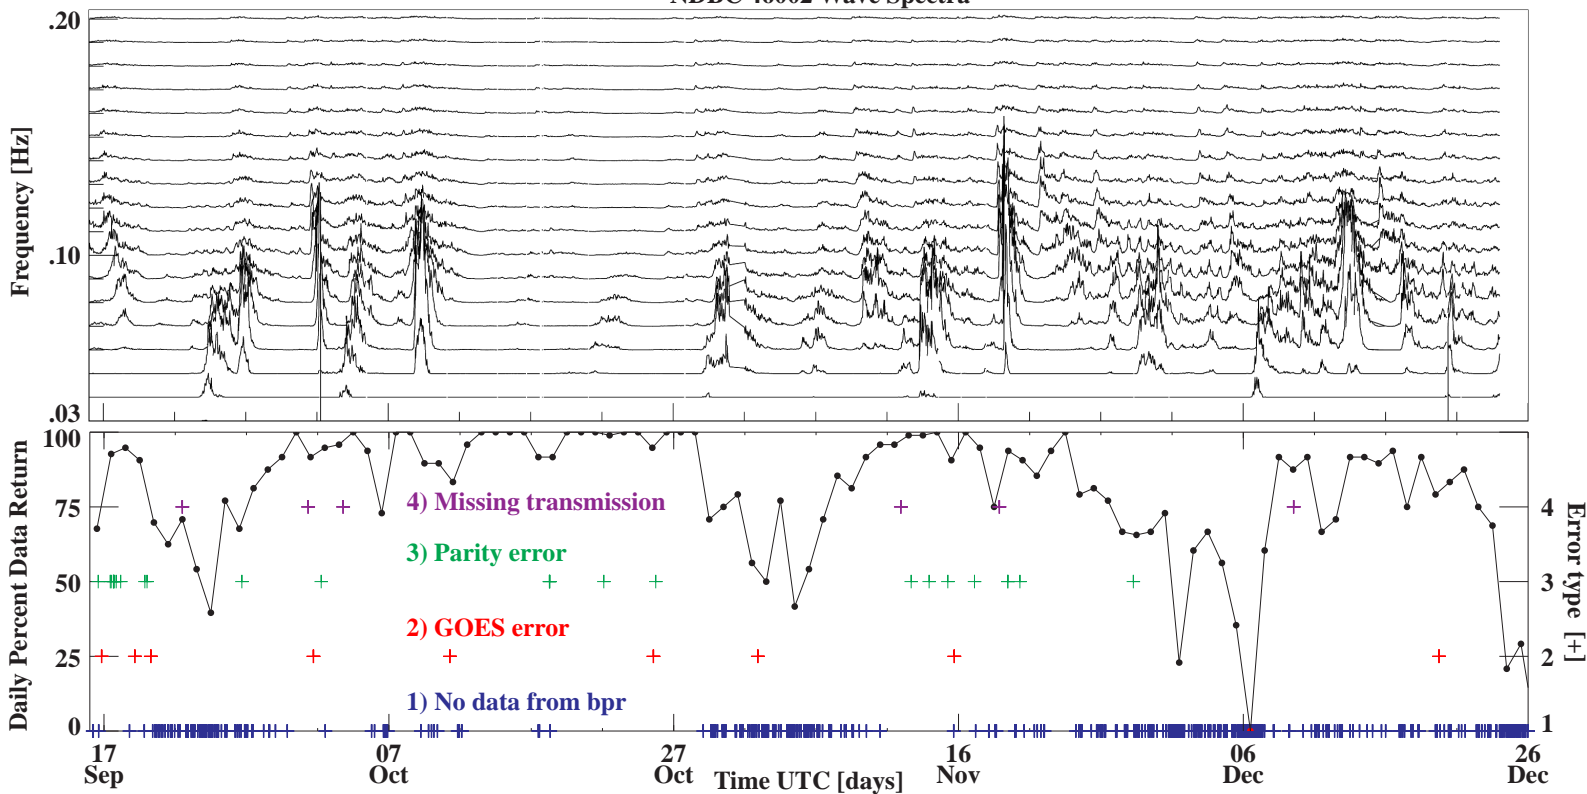

Figure 4. Summary of the distribution of failures (3 failed transmissions) with (a) wind direction, (b) wave period, (c) direction from the BPR to the surface buoy, and (d) horizontal range from the BPR to the surface buoy. Also presented are (e) the frequency distribution of wave energy at NDBC 46002, and time histories of (f) the daily percent of data return and the error type.
