

Journal Articles and Citations

Shown below are lifetime totals of referred journal articles, citations, and H-index for current PMEL authors through December 2013 as reported by the Web of Science*. They are compared to numbers collected in December 2007 as part of the 2008 PMEL lab review.

Note: Authors shown in **bold type** were not reported PMEL published scientists at the time of the 2008 review.

* Note: Web of Science totals tend to underestimate the actual publication record by a scientist, due, at least in part, to Web of Science's inability to incorporate all refereed journals worldwide into its database.
